

# German WWII Schnürschuhe (Low Boots) Evaluation

Grading of the suppliers listed here is based solely on the personal judgment of Doug Strong. No insult is intended, nor does it reflect the opinions of any reenactment organization. The boots have been placed in three tiers. The list is made with US buyers in mind. All prices have been converted into US dollars at a mid January 2020 exchange rate. This evaluation does not take into account makers that have changed their designs multiple times and only accounts for the newest version as pictured on their website. Some makers may also have old stock from earlier runs with which they are still filling orders. It may also be possible that companies have changed their designs and not changed the photos on their websites.

**Updated 1/16/2020**

Tier 1 boots are made by the company, seller or individual selling them and are high in both quality and authenticity.

Maker/Dealer	Country- & Maker or Vendor	Authenticity rank	Quality rank	Positive features	Negative features	Grade	Price

My recommendation is as follows.

1. Buy from a top tier maker. Their price is VERY similar to a tier two dealer and their quality and authenticity are far superior. My recommendations would be either [Fredericci](#), or [Lederarsenal](#). If you need boots quickly and don't mind paying extra for off the shelf then [At The Front](#) is a good choice.
2. If budget is the biggest concern then consider a tier two pair and have a skilled cobbler (such as myself or Chris Chase) fix them and make them wearable for you.

Doug Strong, the [Kompanie Schuster](#)
